

SECURE PURCHASE PROCESS

Your funds are protected – step by step

A secure flow in which the purchase price is held by independent escrow until title is transferred.

PURCHASE PRICE 100 %	DOWN PAYMENT 30 % to escrow	BALANCE 70 % or 20+25+25 %
--------------------------------	---------------------------------------	--------------------------------------

1	Sale contract + verification The parties sign an SPA with the property details, purchase price, payment plan (30 %+70 % or 30 %+20 %+25 %+25 %), completion date and refund/forfeiture terms. KYC/AML is a separate schedule. The escrow account is issued as a separate schedule by the broker or Finance Manager.
2	30 % down payment to escrow After signing, the buyer transfers 30 % to the officially verified escrow / client account (SEPA Instant as first choice). Funds never go to a private account. Crypto only if the contract and the escrow schedule expressly allow it.
3	Inspection, due diligence and remaining funds An inspection protocol is prepared: legal review, title, mortgages/debts, KYC/AML and source of funds. The transfer deed is prepared. The remaining 70 % is then transferred in one step – or 20 %, 25 % and finally 25 % under the chosen model. The process proceeds only once 100 % is secured.
4	Completion and transfer of title The final transfer documents are signed. The conveyance and title are registered under local law. Only then are funds released to the seller. The buyer receives possession and documentation. Money and title move in the correct order – never the other way around.
