When 100 % must be secured, before completion	—	25 % · EUR 250,000

Choice in this contract	☐ Model A	☐ Model B
-------------------------	----------------------------------	----------------------------------

Escrow shall not release funds to the seller until 100 % of the price has been received and verified and the transfer has been registered under local law. SEPA / SEPA Instant is the primary method. Crypto may be used only if Schedule B specifies the token, network, wallet, controller, rate, timing, number of confirmations and who bears fees.

5. Completion date

AGREED COMPLETION	[YYYY-MM-DD], but not before the day on which 100 % is secured in escrow and the transfer deed can be signed.
LONG-STOP DATE	[YYYY-MM-DD]. If this date is missed due to the seller's delay, clause 6.1 applies.
PLACE OF COMPLETION	[Notary office / specified city]

Completion takes place only when (i) 100 % of the price is in the escrow account, (ii) the inspection protocol is approved or remarks have been settled, (iii) KYC/AML under Schedule A is approved for both parties, and (iv) the final transfer documents are signed.

6. Refund or forfeiture of the down payment

6.1 Refund to the buyer. The 30 % down payment, and every later instalment, shall be repaid in full from escrow within five banking days if any of the following occurs: (a) the seller cannot prove free and unencumbered title, (b) a material mortgage or debt is not discharged before completion, (c) the inspection protocol shows a material defect that the seller does not remedy or adjust in writing within 14 days, (d) KYC/AML of the seller cannot be completed, (e) the seller fails to attend completion, or (f) the parties withdraw in writing.

6.2 Forfeiture to the seller. The down payment may be applied for the seller via escrow only if the buyer, after all of the seller's conditions are met, misses a due instalment by more than ten banking days or refuses to sign the transfer deed without valid grounds under this agreement. Escrow shall not release a forfeited deposit until a written reminder has been issued and the deadline has expired.

6.3 Neutral holding. If there is a dispute under 6.1 or 6.2 the funds remain in escrow until the parties agree or a competent forum decides. Escrow does not determine the merits of the dispute.

7. KYC/AML and source of funds

Both parties shall undergo KYC/AML checks. The file, checklist and approval form Schedule A to this agreement and are a condition for escrow receiving funds. The buyer shall also evidence the source of funds for the entire purchase price. Without approved papers escrow may refuse a payment.

8. Due diligence, inspection and transfer deed

After the 30 % has reached escrow, an inspection protocol is drawn up using the template in this pack. It covers the legal review of the property, title, mortgages and debts, KYC/AML status and source of funds. The transfer deed is prepared in parallel. Only when the protocol is approved may the remaining funds under the chosen model (70 % or 20 % + 25 % + 25 %) be transferred to escrow. Only when 100 % is secured does the process move to completion.

9. Completion and transfer of title

When 100 % is secured the parties sign the final transfer documents. The notary or competent authority effects the conveyance. Title is registered under local law. Only then does escrow release the net amount to the seller. The buyer receives possession, keys and documents. Money and title move in the correct order – never the other way around.

10. Escrow account – separate schedule

The official notary/escrow account is not set out in the body of this contract. Account details, IBAN, reference and any crypto protocol are issued as Schedule B by the personal broker or Finance Manager after the SPA and Schedule A have been started. The buyer must check that the payee name is Living Abroad Advisory Centres Limited or the notary expressly named in Schedule B.

11. Costs and taxes

Notary, registry and transfer taxes are allocated according to local practice in the country of the property, unless the parties record another split here: []. Each party bears its own advisory costs. Network fees on any crypto payment are borne by the party named in Schedule B.

12. Notices

Contract notices shall be given in writing to the email stated in clause 1, copied to the broker/Finance Manager. A payment instruction that does not come that way has no effect.

13. Schedules forming part of this agreement

- Schedule A – KYC/AML verification of both parties and source of funds.
- Schedule B – Notary/escrow account (issued separately by the broker or Finance Manager).
- Schedule C – Inspection protocol with legal review (prepared after the 30 %).
- Schedule D – Inventory and any floor plan.

14. Governing law and disputes

This agreement is construed under the law of the country where the property is situated, unless the parties have chosen another law in writing: []. A dispute that cannot be resolved under escrow clause 6.3 shall be heard by [specified forum / arbitration].

This agreement is executed in two originals, one for each party. Escrow receives a certified copy together with Schedule A and Schedule B.
